The commitment of BRGM’s Direction Générale to equality between women and men at work

BRGM is strengthening its commitment to equal opportunities by implementing “proactive measures” through a new agreement on professional equality between women and men at work, signed by its Management with the three trade unions in February 2021 for a period of 3 years (2021-2024). It will address 7 issues:

- Gender parity in BRGM professions and reinforced diversity in professions that are currently imbalanced;
- Enabling women's access to executive positions;
- Equal pay for women and men;
- Access to international assignments for young parents and women;
- Reconciling work, personal life and parenthood;
- Preventing and fighting against all forms of sexism at work;
- Building a genuine culture of equality.

The aim is to move towards completely egalitarian treatment of women and men at work.
